To the Library Board
Flint Public Library

We have audited the financial statements of the Flint Public Library (the "Library") as of and for the year ended June 30, 2021 and have issued our report thereon dated October 11, 2021. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated August 9, 2021, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.

As part of our audit, we considered the internal control of the Library. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Library are described in Note 1 to the financial statements. As described in Note 1, the Library adopted GASB Statement No. 84, *Fiduciary Activities*, during 2021.

We noted no transactions entered into by the Library during the year for which there is a lack of authoritative guidance or consensus.

We noted no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the financial statements were the useful lives of capital assets, the net pension asset for MERS, and the Library's share of the MPSERS net liabilities for the pension and other postemployment benefit (OPEB) plans. Useful lives of capital assets are based on management's estimate of their remaining lives. Management's estimate of the asset related to the MERS pension is based on estimates provided by specialists (third-party actuaries). Management's estimates of the pension and OPEB plans under MPSERS were based on data received from the Office of Retirement Services. We evaluated the key factors and assumptions used to develop the estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We did not detect any misstatements as a result of audit procedures.

Significant Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Library, and business plans and strategies that may affect the risks of material misstatement, with management each year prior to our retention as the Library's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition of our retention.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 11, 2021.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the Library's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Information

COVID-19 Resource Center

Plante & Moran, PLLC has assembled a COVID-19 task force of leaders across the firm to monitor, address, and mitigate risks presented by the virus. We understand the unique challenges our local governments are facing in providing essential services to protect communities during the COVID-19 crisis, while, going forward, they face seemingly impossible choices around staffing, capital projects, pension obligations, and dozens of other items in the face of an uncertain revenue outlook. We are sharing our insights within our government COVID-19 resource center at <https://www.plantemoran.com/explore-our-thinking/areas-of-focus/covid-19-government-resource-center>. We will keep you updated with relevant economic analyses, crisis management guidelines, notices of changing regulations, and more to keep the Library running as smoothly as possible amidst uncertainty and unprecedented disruption.

We are also sharing Coronavirus Aid, Relief, and Economic Security (CARES) Act-specific insights within our CARES Act COVID-19 resource center at <https://www.plantemoran.com/explore-our-thinking/areas-of-focus/cares-act-resource-center>. Have questions about the CARES Act? Submit them at <https://www.plantemoran.com/campaigns/firm/cares-act> by simply providing your contact information and agreeing to our terms and conditions, and an expert from our task force will contact you within 24 hours.

Michigan's CARES Act-funded Grant Programs

The Michigan Department of Treasury has developed a webpage with numbered letters, memorandums, webinars, and resources regarding COVID-19 updates and CARES Act-funded grant programs: https://www.michigan.gov/treasury/0,4679,7-121-1751_98769---,00.html.

Cybersecurity and Information Technology Controls

Cyberattacks are on the rise across the globe, and the cost of these attacks is ever increasing. Because of these attacks, municipalities stand to lose their reputation, the ability to operate efficiently, and proprietary information or assets. Communities potentially can also be subject to financial and legal liabilities. Managing this issue is especially challenging because even a municipality with a highly mature cybersecurity risk management program still has a residual risk that a material cybersecurity breach could occur and not be detected in a timely manner. We understand that the technology department continues to monitor and evaluate this risk, which are critical best practices. Additionally, periodic assessments of the system in order to verify that the control environment is working as intended are key parts of measuring associated business risk. We encourage administration and those charged with governance to work with the technology team on this very important topic. If we can be of assistance in the process, we would be happy to do so.

Michigan's MLTS E911 Legislation (PA 30 of 2019)

Public Act 30 of 2019 was adopted on June 25, 2019 and provides additional compliance requirements for organizations that operate Multi-Line Telephone Systems (MLTS). The intent is to provide emergency responders with more specific location information in case they are responding to a call at a large facility. The regulations will apply to any workspace larger than 7,000 square feet, with a compliance deadline of December 31, 2020.

- A workspace includes: offices, production areas, warehouses, shop floors, storage areas, hallways, conference rooms, break rooms, and other common areas.
- A workspace does not include: wall thickness, shafts, heating, ventilation, air conditioning equipment spaces, mechanical or electrical spaces, or any similar areas to which employees do not normally have access.

Other Information (Continued)

For single buildings over 7,000 square feet of workspace, with their own street address on a single contiguous property, the floor number, street address, and specific location of the communications device must be reported. When facilities with multiple buildings served by the same MLTS are considered, they must report the above requirements in addition to the building's unique identifier. Also, note that, under Kari's Law, any MLTS equipment that is manufactured, imported, sold, leased, or installed after February 16, 2020 must be capable of enabling its users to dial 911 directly without having to dial a prefix.

E911 Exemptions

- If a building contains less than 20,000 square feet of workspace and fewer than 20 communications devices, the MLTS operator is exempt from providing specific location information until it installs a new MLTS after January 1, 2020.
- If a building maintains, on a 24-hour basis, an alternative system capable of identifying the location of any communications device that dialed 911 or the building is serviced with its own appropriate medical, fire, and security personnel, it is exempt.
- Any MLTS operator that is not currently served by enhanced 911 service is exempt until enhanced 911 service becomes available.
- Other exemptions exist for farms and houses of worship, which, for the latter, do not extend to attached schools.

If you operate in a facility that is subject to these regulations, you should begin to plan for compliance. If we can be of assistance in the process, we would be happy to do so.

Updated Uniform Chart of Accounts

In April 2017, the State released an updated Uniform Chart of Accounts. Originally, local units of government were expected to comply with the changes beginning with June 30, 2018 year ends. However, the State has extended the deadline for compliance. On April 20, 2020, the State issued a memo that sets an implementation date for fiscal years ending on October 31, 2022 and thereafter. The State has committed to releasing various tools to help local units with implementation, including FAQs and clarification on which accounts should be used when implementing GASB 84. A final release of the chart of accounts was issued in November 2020 and is available at this link: https://www.michigan.gov/documents/uniformchart_24524_7.pdf. This final version follows various exposure drafts and revisions in order to comply with changing GASB standards and statutory changes and reformats the document to make it more user-friendly. The Treasury will provide alerts for any guidance and resources, and local units can sign up for alerts at this link: https://public.govdelivery.com/accounts/MITREAS/subscriber/new?qs=MITREAS_1.

Upcoming Accounting Standards Requiring Preparation

GASB Statement No. 87 - Leases

This new accounting pronouncement will be effective for reporting periods beginning after December 15, 2019 (June 15, 2021 after extension within GASB Statement No. 95). This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

We recommend beginning to accumulate information now related to all significant lease agreements in order to more efficiently implement this new standard once it becomes effective.

**Other Information
(Continued)**

Plante & Moran, PLLC will be providing trainings and other resources to our clients in the coming months to help prepare for the implementation of all these new standards. In the interim, please reach out to your engagement team for assistance in getting started.

GASB Statement No. 89 - Interest Incurred during Construction

This new accounting pronouncement will be effective for reporting periods beginning after December 15, 2019 (December 15, 2020 after extension within GASB Statement No. 95). This statement eliminates capitalized interest and instead requires all interest expense, including the portion incurred during the construction of a capital asset, to be expensed. Early adoption is encouraged.

GASB Statement No. 92 - Omnibus 2020

This new accounting pronouncement has various effective dates that were postponed by one year after extension within GASB Statement No. 95. This statement addresses eight unrelated practice issues and technical inconsistencies in authoritative literature. The standard addresses leases, intraentity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activities of public entity risk pools, fair value measurements, and derivative instruments.
