

Memo

To: Director Schwartz and Board of Trustees
From: Martita Moffett-Page, Director of Finance and Human Resources
Date: December 29, 2022
Re: **Local Government System Annual Report (Form 5572)**

Attached you will find the Local Government System Annual Report, Form 5572 as filed on December 13, 2022 with the Michigan Department of Treasury. PA 202 of 2017 requires this report “be filed for any local unit of government that offers a retirement pension benefit and or a retirement health benefit plan” (MI Dept. of Treasury, Form 5572 instructions, part A.) The purpose of the report is to provide the information to the legislature on the status of the publicly funded retirement and retiree health care plans in the State of Michigan. The public act provides for oversight if a reporting unit has underfunded status by requiring the creation and filing for approval of a corrective action plan.

The report has two parts, the first is the report on the pension plans and the second is the report on retiree health care plans. We are required to submit this report electronically to the governing body of the local unit of government after submission to Michigan Department of Treasury. This summary is to aid in understanding the report.

Please note that the Flint Public Library currently meets the guidelines for the funding of its retirement plan and will not require further action.

Flint Public Library has two pension plans in the pension part of the report; they are as follows:

- The Municipal Employees Retirement System (MERS) covers full time employees hired after July 1, 2002 and part time employees hired prior to July 1, 2012. The plan is a defined benefit plan without retiree health care. Employees are vested after 10 years of employment with the library. Retirement contributions are paid monthly based on the percentage of eligible retirement earnings. The plan is overfunded at 107.7%. The overfunding is the result of individuals having worked at the library and leaving before they were vested in the plan; payments made on their behalf are still part of the plan assets.
- The Michigan Public School Employees Retirement System (MPERS) covers all employees that continued their employment with the Flint Public Library after the library separated from the Flint Community Schools in 2002. The plan is a defined benefit plan with retiree health care for

retirees and their beneficiaries. Employees are vested after 10 years of service in a public school district, eligible district public library and eligible universities. The plan is part of the Office of Retirement Services within the State of Michigan and is governed by Public Act 300 of 1980 as amended by the state legislature and governor. The library currently has eight participants in this plan. The plan as a whole is underfunded; the libraries proportionate share of the underfunding is \$1,407,525 in liabilities as of September 30, 2021 or .00595% of the total plan. The stabilization payments received yearly are part of a funding solution to eliminating the underfunding by the year 2032.

The pension part of the report provides summary information on each plan and calculates as to whether there is an unfunded status for the plans as defined by PA202 of 2017. The calculation for the library includes the MERS plan, which is overfunded. The MPSERS plan, as a cost-sharing plan, is not included in the calculation.

The second part of the report provides information about retiree health care plans. The MPSERS plan provides for retiree health care, the MERS plan does not. The library's proportionate percentage of the unfunded portion of the MPSERS plan is \$86,034 in liabilities as of September 30, 2021 or .00564% of the total plan. The MPSERS plan is a cost-sharing plan; we are not required to provide additional calculations.

If you have further questions, please email me at mmoffett-page@fpl.info. Thank you.
